EDUCATION

Savannah College of Art and Design, Atlanta Campus | 2019 – June 2023

Major: Industrial Design, BFA

GPA: 3.48

EXPERIENCE

Low Temp Industries, Drafter | 2023-Current

- Leveraged skills in Auto-CAD and Revit to draft, modify, and streamline food serving counters for clients all across the United States.
- Collaborated cross functionally with representatives, architects, and correspondents to design solutions in a deadline oriented environment.
- Gained valuable knowledge and appreciation for manufacturing processes, and design, color, and layout while managing updated, organized files on the server.

Graphic Design and CAD Intern at KoruWorks | 07/01/2022 - 03/15/2023

- Used my advanced knowledge of Keyshot and Solidworks to prototype new and existing product designs for the automotive industry. Furthered skills in Adobe Photoshop and Illustrator to complete my design pitches and create marketing materials for the products when launched.

PORTFOLIO HIGHLIGHTS

SYMBO: A Last Mile Delivery Solution | 03/15/2023

- SYMBO is a last mile delivery solution in partnership with Atlanta's Midtown Alliance and Marta.
- Researched and presented innovative ideas, offering solutions to last mile delivery complications.
- Leveraged skills in the design exploration process, from research, strategizing, prototyping, rendering, branding, and physical assembly.

Alumotive, Co-Founder and Head Designer | 01/15/2023

- Manually prototyped new parts for Mercedes motors, used skills in 3D printing to advance design innovation, as well developed products alongside manufacturers.
- Created a strategic marketing plan, art and graphic design material that supported the brand identity, and applied the branding to new product ideas via renderings and sketches.

Sustainable Material Study - Adidas Sandal | 03/12/2022

- The FLOP sandal is an exploration with surface smoothing in Solidworks, rendering skills in Keyshot 11, and sustainable material study with material prototypes and samples. The FLOP is a unique, customizable, and environmentally conscious alternative to other leading sandals.

KEY SKILLS

- Solidworks and Solidworks Engineering Drawing
- Keyshot Rendering
- Graphic Design, Branding, and Product Development
- Adobe Illustrator, Adobe Photoshop, Adobe InDesign
- 3D-Printing and Prototyping
- AutoCAD
